#### THREE TOWNS ARE CAPTURED

Courcelette, Flers and Martinpuich Taken-New Armored Motorcar Advances With Infantry Over the Trenches and Shell Craters.

London, Sept. 18.-The greater part the high ground between Combles and the Pozieres-Bapaunme road, accordto the official communication issued

on Friday More than 2,300 prisoners were captured in the drive. The statement

"The fighting, which has been severe, resulted in our capture of vircent of their salaries at time of retire- tually all the high ground between Combles and the Pozieres-Bapaume

> road. "Most of the Bouleaux wood, Flers, High wood, Martinpuich and Courcelette have fallen into our hands. The enemy fought stubbornly to retain his

"Over 2,300 prisoners already have been passed back, including 65 officers, six of them being battalion commanders,"

British Front in France, via London, Sept. 18 .- At dawn the British made the most powerful general at Joffre's Men Extend Gains, Both North tack, supported by the heaviest volume of shell fire, since that of July 1, when the grand offensive began.

The attacking front extends over six miles, from the region of Thiepval to the Junction with the French army Pierce; Van Wert circuit, W. H. Cundy; Wauseon, O. P. Hoffman; West Unity, C. L. Conger; William Center, F. W. Arthur. ten weeks.

Having gained the whole ridge from the east of Thiepval through Ginchy lina, W. W. Lance; Celina circuit, A. H. and all the old German second line fortifications, the British made their next step, a broad stride down the hill, piercing the newly constructed

> German third line. The sweep forward during the afternoon gained the village of Flers, brought the British to the edge of Martinpuich, and put the bloody shambles of High wood and Devil's wood, for which two most determined counter-attacks made the hardest struggle in the history of the British

The British also are close to the village of Courcelette. They have taken "Wunder Werk" redoubt, in the Thiepval region, which belonged to the old first line fortifications. The Germans

East of Devil's wood the Germans continue to make desperate resistance North of the Somme the French captured a series of German trenches and advanced as far as the village of Rancourt. On the Verdun front two German attacks were repulsed.

Aside from their increased artillery fire in the great new drive on the Somme the British brought into action for the first time a new type of armored motorcar, capable because of its powerful traction of crossing trenches and shell craters. For some days the army had watched it with interest and curiosity, and as it moved along in support of the infantry in their charges they cheered it, even in the midst of shell fire.

There has been nothing more wonderful, even in this war, than the spectacle of its advance toward the German line.

#### GERMAN PRINCE IS KILLED Frederick William of Hesse, Nephew

of the Kaiser, Slain on the

Balkan Front.

and South of the Somme-Berlin Admits Loss.

London, Sept. 15.-Continuing the spectacular offensive which marked a gain of two miles and at night captured the village of Bouchavesnes and advanced 600 yards beyond the Bapaume-Peronne highway, the French extended their gains both north and south of the Somme.

A total of more than 2,300 prisoners captured in this action is officially reported by Paris. The same statement innounces a new advance on the German base of Combles from the north and the capture of the entire German trench system south of Prize farm. Smashing German counter-attacks at several points are declared to have been repulsed.

The German official statement fol-

"Front of Field Marshal Prince Rupprecht of Bavaria (Somme): The outtle north of the Somme has recommenced. Our troops are engaged in heavy fighting between Combles and the Somme. The French entered Bouchavesnes."

Burleson on the Election Situation.

Long Branch, N. J., Sept. 16.-Presilent Wilson for the first time gave detailed consideration on Thursday to his campaign for re-election. In the xecutive offices at Asbury Park he went over reports from political lenders in various states and began mapping out his plans for the next two nonths.

Postmaster General Burleson, one of Mr. Wilson's chief polit,cal advisers. s at Spring Lake, near here, visiting Secretary McAdoo, and the two cabinet members went over the political situation with Secretary Tunulty.

As a result of the conferences it was indicated that greater attention would be paid to the campaign in Orecon. Washington, Utah and California. because of reports received by admin-Istration officials leading them to believe Democratic prospects in those states are excellent.

428 PERSONS RESCUED FROM STEAMER CONGRESS OFF MARSHFIELD, ORE.

CARRIED 253 PASSENGERS

Captain of Blazing Vessel Wins Terrific Race to Shore and No Loss of Life is Reported-Boats Answer Wireless Call for Help.

Marshfield, Ore., Sept. 16.—En route from San Francisco with 253 passengers and a crew of 175, the Pacific Coast Steamship company's steel steamer Congress caught fire 30 miles off this port late Thursday. A terrific race to save the steamer's human freight at once began. The

Congress dashed for shore. In deep water off the harbor entrance she cast anchor, the flames creeping forward meanwhile from the after hold to a point amidships. Boats were swung out and lowered and the work of taking off the passengers began. Among the rescued was Miss Emma Schafer of Chicago. As fast as a boat became loaded it proceeded to the government bar

dredge, Col. P. S. Michie, to which the passengers were transferred. When the work began the forward decks of the Congress were black with terrified men, women and children. As the work proceeded the passengers became calmer. By dark all were off the Congress.

and the Michle and the Tillamook headed for the harbor. The Congress by this time was completely wrapped in flames from stem to stern. The fire was first discovered about

three o'clock in the afternoon. It broke out in the second hold in the steerage. The passengers for the most part be-

haved well and there was no panic. The ship's officers repeatedly assured those on board that port would be made in ample time for all to be saved. Wireless calls were sent out urging all vessels to come to the rescue, and these were repeated at frequent intervals un-Cebu was a mile and a half inside til the wireless power plant became disabled and useless. First the main wireless plant became useless and then the auxiliary went down, but not until the to give Lieutenant Beiles, the British Coos bay station had received the S. O. # **MAKE BIG GAINS**

TRENCH MILE LONG TAKEN-LONDON CHRONICLES ADVANCE

OF A THOUSAND YARDS.

Teutons Are Forced to Yield Mouquet Farm to Foe After a Long Struggle.

Western Union Newspaper News Service. London.-Both the British and French increased their gains on the Somme front. The French after two days of comparative rest resumed their drive south of the Somme. They captured the greater part of the villages of Vermandovillers and Berny, portions of which they have held for more than a week. The fighting put the French in possession of the whole ground between the Vermandovillers-Deniecourt and the Deniecourt-Berny sectors. At Deniecourt the Germans still are desperately defending every inch of groud, but the two tips of the southern line of the great salient have been completely crushed in. Gen. Foch's infantry added still further to this success by capturing a number of trenches between Berny and Barleux. Repeated furious counter attacks were beaten off by the French curtain of fire. Seven hundred prisoners, including 15 officers, were taken by the French in the day's advance.

#### STARTS A RUN ON STATE BANK.

Chicago.-Russians and Poles in Chicago's West Side foreign quarters, panic-stricken by failure of several private banks, jammed and fought their way into a state bank in that district and created a run on the institution. The bank was that of Schiff & Co., which has more than \$2,500,000 in deposits and is believed to be absolutely solvent. Banks in the West Side foreign quarters are opened here for a few hours on Sundays. When the Schiff bank opened a crowd of depositors entered and began withdrawing funds.

#### TROOP SHIP DESTROYED BY FIRE

Douglas, Ariz.-News has just been received here of the destruction by fire of a steamer carrying Carranza troops from Manzanillo to Guaymas. Two hundred lives were lost. Jose Diegez, brother of General M. M. Diegez, who was on the steamer on a special mission from Carranza to the Sonoro officials, escaped, swimming ashore naked. The fire is believed to have been of incendiary origin, legal istas being suspected.

Unsuspected Efficiency. The bureau of plant industry is endeavoring to improve tobacco by scientific study of the different brands. To eliminate the personal equation in smoking and to secure uniformity of conditions, the bureau has a carefully regulated apparatus for testing the burning quality of cigars. The "pull" on the cigar is secured by means of an aspirator, which is filled by a continuous inflow of water and emptied at regular intervals by a siphon. The "pull" occurs at intervals of 30 seconds and lasts for a period of ten seconds. The apparatus smokes four

Soothed and Healed by Cuticura Soap and Ointment. Trial Free.

Smear the affected skin with Cuticura Ointment on end of finger. Let it remain five to ten minutes. Then wash off with plenty of Cuticura Soap and hot water. Dry without irritation. Nothing like Cuticura for all skin

troubles from infancy to age. Free sample each by mail with Book. Address postcard, Cuticura, Dept. L. Boston. Sold everywhere .- Adv.

Gratification. "You go to church more frequently

than you used to." "Yes. And apart from the instruction I derive a great deal of satisfaction from my attendance. It's a great comfort to be where people sing and play fine music without anybody's spoiling it by putting in ragtime words or wanting to dance."

Dr. Peery's "DEAD SHOT" is an effective medicine for Worms or Tapeworm in adults or chlidren. One dose is sufficient and no supplemental purge necessary.-Adv.

NEW FOOTWEAR FOR ARMY

Improved Shoe Model Will Be Hobnailed for Service In Mexico.

The war department appointed a shoe commission in 1912 to design a model embracing the best points of all the army shoes, surpassing them, if possible. The shoe which was adopted was of good materials, well made on a rational last designed by the department. The Interior is perfectly smooth, with heel broad and low and sole moderately thick. The arch is flexible and without metal shank or other stiffening. Eyelets are used rather than hooks. The shoe reaches but little above the ankle; it is wide across the ball of the boot and has a high toe cap. It is comfortable, neat looking, light in weight and easily re-

moved or put on. As soon as the soldiers wear out the shoes of the type which they are now using on the border they will be refityellow 86@861/2c, No. 4 yellow 841/2@ | ted with the new type which the government has ordered, says a writer in the Outlook. The newest shoe is hobnafled and weighs three pounds seven ounces. It has been adopted for Mexican service because the present type has not worn well in mountain climbing and has been readily cut up by the malpais rock in Mexico. The shoe is

similar to that in use in the Italian army. Whether this model will be permanently adopted is open to considerable doubt. The weight of the shoes and the stiffness of the leather used detract from the comfort of it. It has Wheat-No. 2 red \$1.52@1.54, No. 3 some disadvantages, therefore, but the severe usage in Mexico made it desirable to give this type a thorough try-

> out in regular service. Largest Fountain Pen.

What is believed to be the largest fountain pen ever made for actual use was completed a few days ago in New Orleans. This pen is made of silver and holds two ounces of ink. It is ten inches long with the cap and eight inches without the cap, not including the point. The pen weighs about four ounces.
